Subject: Selection of RESES Proposals for 2018

On behalf of Jennifer Orme-Zavaleta (Principal DAA for ORD), the Sustainable and Healthy Communities Research Program is pleased to announce the selection of the six top-rated proposals submitted for the FY18 Regional Sustainability and Environmental Sciences (RESES) solicitation. Through RESES, regionally-identified environmental issues are paired with ORD expertise to address critical state and community needs. RESES projects can be a unique opportunity to apply some of our newest research tools to address regional priorities and inform current ORD research. Specific feedback for each of the 19 submitted proposals will be provided to the project teams in a separate email.

Region/s	Regional Lead / ORD Lead	RESES Project Title
----------	-----------------------------	---------------------

R5	Rosita Clarke, R5 Joel Hoffman, ORD	Beneficial Use of Dredged Materials: Opportunities, Community Benefits, and Applied Guidance
R2	Mark Maddaloni, R2 Pai-Yei Whung, ORD	Emergency Planning at the Local-Scale with the New Jersey Department of Environmental Protection – Interactive Mapping of Flood-Induced Contaminants from Hazardous Waste Sites in New Jersey
R5	Camille Lukey, R5 Thabet Tolaymat, ORD	Detecting Elevated Temperature Landfills Using Landsat Thermal Imaging
R3, R4, R5 & R8	Sheryl Good, R4 Rachelle Duvall, ORD	Community Participation in Classifying Odors from Air Pollution Emissions
R8	Stacey Eriksen, R8 Michael Nye, ORD	Predicting/Modeling Improvements in Public Health and Ecosystems Goods and Services Associated with Major Urban Redevelopment and Infrastructure Projects at Sun Valley in Denver
R9	Lyndsey Tu, R9 Dale Werkema, ORD	Geophysical evaluation for plume mapping, remediation monitoring, and site characteristics at Tribal leaking underground storage tank sites in California and Arizona

Additional details regarding next steps are provided in the attachment. ORD looks forward to working with the Regions as we initiate these important projects.
